

Publishing results obtained from ESRF data

Article writing process

Properly acknowledge ESRF staff as co-authors

if they were one of the scientific drivers of the work done, or played a key role in the experiment. This includes running the beamline and collecting data for users in remote access mode during the COVID pandemic.

Acknowledge the ESRF, according to:

"We acknowledge the European Synchrotron Radiation Facility for provision of synchrotron radiation facilities under proposal number ### and we would like to thank xyz for assistance in using beamline ###."

Specify the **beamline**

Specify the **proposal number**

Cite the **ESRF data DOI**. The unique Digital Object Identifier of each experimental session can be found in the user portal and the data portal.

After the article is published

Inform the library

- **Upload** your article **reference** and your **postprint version** (if the article is not open access) in the library database:
<https://epn-library.esrf.fr/flora/>
- or **send** an email to library@esrf.fr with your **postprint version** (if the article is not open access)
